Information Sheet I

Brief Description of Data provided with Black Hawk County GIS Products

<u>Note:</u> This list is subject to change and therefore is presented as information only.

<u>All drawing components are created as a representation and should not be construed as actual.</u> Metadata is provided with GIS Products to provide information about the data.

Parcels polygon

Political corporate/township polygon

Railroad - centerline, and name

Road - centerline and name

Section polygon

Water line (river and lakes) and name

The following data fields can be selected to be included as attribute data in the parcel polygon shape file:

Permanent Parcel Number
Deed name 1 and 2
Contract Buyer name 1 and 2
Property Address
Value Information for Auditor year:
    Class/subclass
    100% Land, building and dwelling values

Additional parcel-related information, including property characteristic information provided through the County Assessor's Office, will also be available for an additional processing fee. Additional data layers (shapefiles) not included in the standard Black Hawk County GIS Products are also available for an additional processing fee. Contact the BHC Information Technology Director for details.

Visit the Black Hawk County Real Estate Mapping website to see the variety of property characteristics.
