

## **Black Hawk County Opioid Abatement Funds Use Application - Fiscal years 2026-2027**

### **Questions and Responses**

**Q1. If an agency has two strategies they will be applying for, should they submit two separate applications? For example, treatment services within the criminal justice system (Strategy 1.2 in the priority table) and prevention programs (strategy 2.2)- the way the evaluation criteria are written, I would think it would be 2 separate applications- but just wanted to make sure.**

A1. Applicants should submit one application per project. If one project meets multiple strategies, one or more strategies may be included in the project proposal.

**Q2. For the project narrative is there a character limit and would pictures and/or tables allowed to be uploaded?**

A2a. The form does not limit the number of characters; however, applicants are encouraged to describe the proposed project clearly and concisely.

A2b. The application form will be modified to allow additional files to be uploaded.

**Q3. Is there a specific budget format that the board would prefer to be used?**

A3. Applicants may use the expense categories outlined in Attachment B - Invoice Template to develop the project budget.
